

## What are the Fund's Objectives?

The Global Opportunities Fund aims to outperform the MSCI World Index and to maximise long-term capital appreciation by investing in listed equities in global developed and emerging markets.

## Who should consider investing in this fund?

Investors who are maximising wealth and who:

- Are comfortable with full exposure to shares of multinational companies
- Accept that the Fund may underperform in the short term
- Wish to diversify currency risk
- Do not foresee unexpected income needs in the short run
- Wishes to use this fund as a "building block" in their overall asset allocation

## What does this fund invest in?

This fund invests only in developed and emerging market listed equities.

The fund will not apply any leverage in the portfolio through borrowing or short positions. The fund may take derivative positions, but only as a portfolio management decision to hedge portfolio exposures or to apply a more cost-effective asset allocation.

## Portfolio Risk and Information

The risk category of this fund is "high" and is geared towards investors that have a long term time horizon as well as high level of tolerance to take risk. This fund is appropriate for investors that wish to maximise long-term capital appreciation by investing in listed South African equities over a 10-year period or more.

The fund provides daily liquidity for investors, except when the liquidation represents more than 5% of the overall portfolio value. In such instances the withdrawal will be managed by the portfolio manager within 15 business days. The fund does not attract capital gains tax. Withholding tax on interest and dividends are applicable dependent on the jurisdiction in which the underlying instruments are invested. Such withholding taxes are deducted at the fund level and no further tax implications will be applicable to the individual. The investor should seek professional advice with respect to tax matters related to their specific investments.

## What are the costs of investing in the fund?

An annual fee of 1.50% and a maximum of 2.50%. The maximum is dependent on the performance of the fund. Arysteq shares in 20% of the outperformance of the fund above its benchmark. This is measured over a 24 month rolling period.

Fund expenses, excluding asset management fees that are incurred in the fund include trading, custody, audit charges and regulatory levies. We do not charge fees to invest or withdraw from the fund.

Arysteq does not provide financial advice. If you appoint an adviser, advice fees are contracted directly between you and the adviser. For more information please contact the relevant platform.

### Management Company

Arysteq Asset Management (Pty) Ltd ("Arysteq") is registered with NAMFISA and the investment management license number is 25/12/86. Arysteq is a wholly owned subsidiary of Lexus Securities (Pty) Ltd, a diversified financial services group that is entirely owned, managed and staffed by Namibians. Arysteq has one wholly owned subsidiary, Arysteq Unit Trust Management Ltd under which our unit trust scheme is housed. Its unit trust scheme license number is 25/9/5/26.

The custodians of the Arysteq Unit Trust Scheme is Nedbank Namibia.

### Performance

Collective investment schemes in securities (unit trusts or funds) are generally medium- to long-term investments. The value of units may go down as well as up and past performance is not necessarily a guide to future performance. The Management Company does not provide any guarantee regarding the capital or the performance of the Fund. Performance figures are provided by the Investment Manager and are for lump sum investments with income distributions reinvested. Actual investor performance may differ as a result of the investment date, the date of reinvestment and applicable taxes.

### Unit Price

Unit trust prices are calculated on a net asset value basis, which is the total market value of all assets in the Fund, including any income accruals and less any permissible deductions from the Fund, divided by the number of units in issue. Forward pricing is used and fund valuations take place at approximately 15:00 each business day. Purchase and redemption requests must be received by the Management Company by 10:00 each business day to receive that day's price.

### Foreign Exposure

The fund invests only in shares of companies listed on developed market stock exchanges. There are no restrictions on how much exposure the Fund can have to different sectors, as is defined under the Global Industry Classification Standard.
